

- 0+ and 0- dialed local calls;
- 0+ intraLATA toll calls;
- calls to be billed to a non-proprietary calling card;
- person-to-person calls;
- collect calls;
- third number billed calls;
- emergency calls;
- calls for Line Status Verification/Busy Line Interrupt; and
- calls for disabled persons.

5.2.6.1 When requested by MCIm, SWBT shall provide credit on directory assistance and operator services calls in the same timeframe SWBT provides to SWBT subscribers.

5.2.7 When SWBT provides such Operator Services to MCIm, SWBT shall query non-proprietary databases or LIDB for Toll Billing Exceptions when processing collect, third number billed and calling card calls on behalf of MCIm subscribers in the same manner as SWBT performs such screening when processing calls for its own-subscribers.

5.2.8 MCIm shall pay SWBT **at rates listed in Attachment I, amounts attributable to Operator Services used by MCIm's subscribers.** SWBT shall provide data regarding such charges to MCIm.

SWBT 5.2.8-1 MCIm shall pay SWBT at the discount listed in Appendix A, for all OS calls attributable to Operator Services used by MCIm's subscribers. SWBT shall provide data regarding such charges to MCIm.

5.2.8.1 SWBT shall provide data regarding billable events as requested by MCIm.

5.3 911/E911 Services. Where available to SWBT's subscribers, SWBT will afford MCIm subscribers with the same ability to make 911 calls. MCIm shall be responsible for collecting and remitting all applicable 911 surcharges on a per line basis to the appropriate Public Safety Answering Point (PSAP).

5.3.1 Where requested by SWBT, MCIm shall provide SWBT with accurate and complete information regarding subscribers in a format and time frame mutually agreed to by SWBT and MCIm for purposes of 911/E911 administration.

5.4 Line Information Data Base (LIDB). SWBT shall use its service order

process to update and maintain the MCIm properly formatted subscriber information on resold lines in its LIDB on the same schedule and in a manner at least equal to that SWBT uses for its subscribers.

5.4.1 SWBT shall exercise at least the same level of fraud control in providing Operator Service to MCIm that SWBT provides for its own operator service.

5.4.2 SWBT shall perform Billed Number Screening when handling Collect, Third Party, and Calling Card Calls, both for station to station and person to person call types in the same manner as SWBT handles such service for its own subscribers.

5.4.3 SWBT shall provide service measurements and accounting reports as mutually agreed to by the parties or at minimum levels as prescribed by state rules and regulations.

5.4.4 SWBT shall allow MCIm to order provisioning of Telephone Line Number (TLN) calling cards and Billed Number Screening (BNS), in SWBT's LIDB, for resold lines as specified by MCIm. SWBT shall continue to allow MCIm access to its LIDB in accordance with SWBT's LIDB tariff.

5.4.5 SWBT shall provide an electronic feed of subscriber call records in "EMR" format to MCIm in accordance with the time schedule designated by MCIm.

6. Development of Branding and Customized Routing for Directory Assistance and Operator Services

6.1 SWBT will brand where technically feasible. As established below, *SWBT will have software which will permit re-branding without customized routing and a separate trunk group, installed by June 1997. SWBT will unbrand MCIm OS and DA calls handled by live operators in the interim period of software implementation.* [Missouri Award No. 20]

6.1.1 Southwestern Bell Telephone Company (SWBT) will offer re-branding of directory assistance and operator services in the name of MCIm starting April 1, 1997, and will complete implementation of this process in all SWBT operator and directory assistance platforms by June 30, 1997.

6.1.2 Where SWBT provides branding to MCIm, the MCIm recorded

brand will be in accordance with SWBT's branding specifications and will be compatible with SWBT's platforms. MCIm will be responsible for the quality of the branded message provided to SWBT. MCIm will also provide SWBT with a copy of its DA/OS rates and reference information to be used when quoting DA/OS rates to MCIm's resale services end users. MCIm acknowledges that it is responsible for providing SWBT with current MCIm DA/OS rates and reference information.

6.1.3 MCIm agrees to pay SWBT's mutually agreed price for initial and subsequent loads of MCIm specific branding phrases and DA/OS rates in each SWBT DA/OS system (e.g., TOPS) in which MCIm has requested branding for its resale services.

6.2 SWBT is to perform customized routing, enabling the combination of MCIm's proprietary OS and DA services with resold or unbundled SWBT services. [Missouri Award No. 19]

6.2.1 Customized routing of Operator Services and Directory Assistance services on those SWBT switches with existing capabilities and capacity (e.g. by utilizing line class code or similar method) will be provided starting April 1, 1997, with complete implementation on all such switches by June 30, 1997. For those switches that lack the existing capability and/or capacity to support customized routing, SWBT will develop alternative methods (e.g. AIN based method) of providing customized routing of Operator Service and Directory Assistance service. SWBT will complete implementation of this method by December 31, 1997. The schedule for development of alternative solutions is dependent upon the ability of SWBT's vendor to meet its current commitment; however, SWBT will use its best efforts to manage the vendor to meet said date. To the extent the methodology is competitively neutral and non-discriminatory, SWBT is free to choose the methodology deployed in their network to perform customized routing of Operator Services and Directory Assistance calls. SWBT will provide an implementation schedule by switch to MCIm no later than 10 days after the Effective date of this Agreement.

6.3 SWBT agrees to the customized routing of the following types of calls:

- 0-
- 0+Local
- 0+411
- 1+411
- 0+IntraLATA 555 toll

0+HNPA-555-1212 (IntraLATA)
1+HNPA-555-1212 (IntraLATA)
